**All products  
Made in USA**

Cut Rite Instruments is a U.S. manufacturer of drilling, grinding and other abrasive instruments. Originally founded in Germany CRI has maintained the quality of German engineering for over 40 years. Committed to research and development CRI is dedicated to providing the most superior quality dental instruments for our customers.

In 1968 founder Klaus Schneider began a series of innovative developments that over the years led to patented designs. These innovations consisted of the "Black Diamond", adjustable grip and depth gauge root canal instrument, individually wrapped sterilized FG diamond instruments.

In 1986, in view of AIDS and other communicable diseases, Cut Rite was the first to introduce an affordable disposable single use instrument to support infection control.

CUT RITE-WHEN YOU CAN'T AFFORD TO CUT WRONG

**HQ Diamond** line offers superior performance at the price of a single use. **Kool Krystal™** line outperforms any “natural” diamond instruments. **Terminator™** line offers unmatched removal rate, perfect for C&B prep.

### HQ DIAMONDS

HQ diamonds are made of pure diamonds and triple plated with a uniform coating. The best multi-use at the price of a throw away.

All ISO Standard Shapes.  
Custom Shapes Available  
**Shaft size:** Short, Med,  
Long  
**Grit:** Super Fine, Fine, Med,  
Coarse, Super Coarse

### KOOL KRYSTAL™

**Kool Abrasive™** technology reduces heat resulting in the following benefits:

- Extended tool life
- No instrument swapping
- Reduced Heat to Patient

All ISO Standard Shapes.  
Custom Shapes Available  
**Shaft size:** Short, Med,  
Long  
**Grit:** Fine, Med, Coarse,  
Super Coarse

### TERMINATOR™

The most aggressive instrument on the market.  
Highest Removal Rate - Shorter Grinding Cycles  
Savings in chair-time and labor  
Drastically reduce C&B time  
Uses Kool Abrasive™ technology to stay cool.

Only Straight Shapes.  
**Shaft size:** Med, Long  
**Grit:** Medium, Coarse,  
Super Coarse  
Excellent for Zirconia and  
Titanium grinding/polishing

For international sales, please contact us and we will refer you to a local distributor who carries Cut Rite products.

## *What's Kool about Cut Rite?*

Cut Rite Instruments are made in the USA to exacting standards from the highest quality materials. CRI is the first to market the performance proven Kool Abrasive™ cutting instruments to the field of dentistry, dental laboratories and dental surgery. The physical properties of our instruments were fashioned after the super abrasives used for decades in the aerospace, automotive, and microelectronic industries. This unique design and quality construction makes them a perfect fit for the dental field. Contrary to diamond and carbides these Kool Abrasives™ do not react chemically with steel, keeping the instrument cooler and extending its life. For more information:
